

Emerging Technologies Forum

April 17 – 18, 2006 • Sacramento Convention Center

While the energy demands of California, the nation, and the world continue to grow, sources for energy are either dwindling or growing at a much slower rate. To make up this disparity, policy makers are considering controversial energy sources such as nuclear, non-renewable resources, and drilling for oil and gas in ecologically sensitive areas. Meanwhile, even with our waste prevention, reuse, recycling and composting efforts, we continue to dispose vast amounts of materials with an incredible amount of embodied energy into our landfills. Are there relatively clean, effective methods to obtain energy and other raw materials from these residuals? Are they a potential source of energy to help meet California's Renewable Portfolio Standards? What energy choices do we face in our future?

Come hear important discussion on non-combustion thermal, chemical, and biological alternatives to landfill disposal of residual materials that are not diverted through recycling and composting markets. Learn about recent research on emissions and comparisons to traditional energy technologies. Increase your awareness of the California Integrated Waste Management Board's assistance programs and research efforts. The forum will provide interactive discussions of solutions, progress, and innovations in emerging technologies.

Content:

Topics covered will include, but are not limited to:

- Overview of Emerging Technologies
- Existing and Planned Emerging Technology Facilities
- Emerging Technology Research and Development Data and Innovations
- Emerging Technology Emissions and Residuals
- Source Materials for Emerging Technologies

Participants

We are seeking participation from a wide range of stakeholders including, but not limited to:

- Representatives from the Scientific Community
- Industry Representatives
- Local and State Government Representatives
- Policy Makers
- Environmental and Conservation Groups
- Writers and Publishers

Forum Location

The Sacramento Convention Center

1400 J Street • Sacramento, CA 95814

The Sacramento Convention Center is located in the heart of downtown Sacramento, steps away from the State Capitol Complex and near the Crocker Art Museum. Visitors can stroll along K Street, which features some of the city's best shopping and restaurants. Small town friendly with big city amenities, California's capitol city also features Old Town, where visitors can meander through the city's historical museums – the world-renowned California State Railroad Museum.

Parking:

Capitol Garage Daily Parking (corner of L & 11th Street): \$17 maximum until 6:00 p.m. After 6:00 p.m. \$1.25 every half hour.

Registration Information:

If you have questions regarding registration, please contact CSUS CCE Conference and Training Services at (916) 278-4433. For more information on the forum itself, please contact Terry Brennan at (916) 341-6578 or e-mail tbrennan@ciwmb.ca.gov.

ATTENDEE REGISTRATION

Register Online at: www.cce.csus.edu/conferences

Hotel Information:

A lodging contract will not be established for this event. Local area hotels include:

Sheraton Grand Sacramento

1230 J Street • Sacramento, CA 95814
(916) 447-1700
