### **Description of Permit Revision**

Rainbow Transfer/Recycling Co. Inc., has submitted an application to revise their existing Solid Waste Facility Permit (SWFP). Rainbow Transfer/Recycling Co. Inc., proposes a 10-year phased expansion of the site facilities and capacity of the transfer station and materials recycling facility (MRF) from 2,800 tons/day to 4,000 tons/day. Initially, a new three-sided Transfer Building #2 with transfer tunnel will be constructed to handle construction and demolition debris and greenwaste. When the incoming daily solid waste averages reach 2,800 tons/day, Transfer Building #2 will be fully enclosed. When incoming daily tonnages average reach 3,300 tons/day, Transfer Building #1 will be remodeled and enlarged. When advanced recycling technology becomes available, a new secondary materials recycling facility will be built. The existing office may also be expanded and the existing materials recycling facility canopy will be fully enclosed. The LEA accepted the SWFP application package on June 3, 2009.

### **Purpose of the Meeting**

This informational meeting is for any interested parties to learn more about the proposed SWFP for this facility and to provide comments to the LEA regarding the proposed action.
