Please be advised that the County of San Diego Department of Environmental Health, Solid Waste Local Enforcement Agency (LEA) will be holding an informational public meeting in compliance with Public Resources Code §44004(h) regarding a proposed permit revision to the Borrego Landfill Solid Waste Facility Permit, SWIS #37-AA-0006. The LEA is certified by the California Department of Resources, Recycling and Recovery (CalRecycle), formally known as the California Integrated Waste Management Board, to enforce state laws and regulations at solid waste disposal sites in the unincorporated area of San Diego County.

The Borrego Landfill is an existing landfill that receives up to 50 tons per day and operates Monday through Saturday from 7:00 am to 4:00 pm. The landfill is located at 2449 Palm Canyon Road, Borrego Springs, California. On March 23, 2010 the LEA accepted for filing a Solid Waste Facility Permit (SWFP) application package from Borrego Landfill, Inc. requesting an update to the estimated closure date.

The proposed revision to the Borrego Landfill SWFP # 37-AA-0006 would:

The LEA's preliminary determination is that the proposed permit revision be approved. The proposed revision to the SWFP would NOT allow for a change in days or hours of operation, tonnage or expansion of the landfill.

This Public Meeting is for any interested parties to learn more about the proposed SWFP revision and to provide comments to the LEA regarding the proposed action. The decision to approve or deny the SWFP revision will be made by the LEA within 120 days of the date the application was deemed complete as required by State statute, and will be submitted to the California Department of Resources Recycling and Recovery for concurrence.
