Introduction

The Los Angeles County Department of Public Health Solid Waste Management Program (SWMP), acting as the Local Enforcement Agency (LEA), is certified by the California Department of Resources Recycling and Recovery to enforce state laws and regulations at solid waste facilities within its jurisdiction. The South Gate Transfer Station operates under a Solid Waste Facility Permit (SWFP) issued by the SWMP. The operator has filed a Report of Facility Information (RFI) with the SWMP. The RFI describes the design and operation of the facility.

Description of Project

The operator has proposed changes to the RFI that provide the most recent available data in tables, figures and text. The description of the controlled recovery of rigid mixed plastics was added to the already existing program of scrap metal recovery. No other changes have been proposed.

LEA's Determination

An application for RFI amendments was received by the SWMP on June 30, 2010. Pursuant to Title 27, California Code of Regulations (27 CCR), Section 21665 (c), the SWMP reviewed the application and determined that the proposed changes are exempt from the requirements of the California Environmental Quality Act, are consistent with State Minimum Standards and do not conflict with the terms and conditions of the current SWFP. The SWMP approved the RFI amendments on July 29, 2010.

As required by 27 CCR, 21660.1, the SWMP is distributing this notice for the purpose of noticing its acceptance of the amendments to the RFI for the South Gate Transfer Station.

Where to get additional information

Additional information about the application is available at the SWMP office located at 5050 Commerce Drive, Baldwin Park, California 91706, Monday through Friday, 8:00 a.m. to 4:30 p.m. To review the application or the facility file, please make an appointment by contacting Dee Hanson-Lugo, EHS III, at (626) 430-5540.
