

  
**PALEO SOLUTIONS**  
Paleontological & Archaeological Compliance & Consulting Services

January 24, 2006

Mr. Jacques Graber  
RCTSS

Dear Mr. Graber:

Paleo Solutions is an Environmental Consulting Company that specializes in paleontological mitigation and compliance with federal, state, and local regulations while eliminating or minimizing impacts to grading procedures and schedules. We also provide archaeological mitigation and compliance. Our professional staff has a total of over 30 years of experience within California. Time efficiency, coupled with reasonable rates makes us competitive.

We understand that in construction, down time can be extremely costly. It is our goal to keep our clients' projects on track. We have experience on hundreds of varied construction sites, making us safe, efficient and aware of our clients' needs and concerns. Our hard-working staff, expertise in field mitigation, and construction site experience greatly minimize the time required for completion of fossil recovery.

Our services range from surveys, assessments, report writing, and laboratory work to monitoring and recovery of fossils on large and small-scale land development. We have extensive experience in, Los Angeles, Orange, Riverside, San Bernardino, San Diego, and Ventura counties, as well as locations in northern and central California. This includes projects for the private sector in addition to federal, state, and local agencies.

We look forward to speaking with you to form a plan that will work for your particular project. If Paleo Solutions can be of any assistance, or if you have any questions, please contact Geraldine Aron at 562-818-7713 or [geraldine@paleosolutions.com](mailto:geraldine@paleosolutions.com). You can also contact Scott Armstrong at 949-813-1240 or [scott@paleosolutions.com](mailto:scott@paleosolutions.com). Thank you for your consideration.
